SECRET GARDEN

THE CHALLENGE

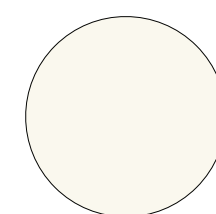

xx

Imagine walking through the woods and stumbling upon a beautiful, secret garden. That's exactly how this couple wants it to feel as you enter into their organic, lush, garden wedding. Abundant, organically arranged florals- almost as if they are growing up onto the tables. It feels almost dreamlike, like a magical soir e. No detail has been overlooked- from the texture of the linens to the fonts used on the menus. The color palette is soft and dreamy. Use organic textures, detailed florals, and elegant details to bring the secret garden to life.
